#### **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

General information not applicable

**Inhalation** Remove from the area of the dust to fresh air. Seek

medical attention if you feel unwell.

**Skin contact** Remove by taping skin with adhesive surface material,

such as Scotch® clear cellophane tape

Wash affected areas thoroughly with soap and water.

**Eye contact** Flush eyes with water for 15 minutes.

**In the event of deliberate ingestion, do not induce vomiting** 

unless directed to do so by consulting with a doctor.

# 4.2 Most important symptoms and effects, both acute and displayed

no data available

### 4.3 Indication of any immediate medical attention and special treatment

no data available

# **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media normal firefighting media and procedures

Unsuitable extinguishing media dependent on processing plant conditions

### 5.2 Special hazards arising from the substance or media

airborne fibers are electrically conductive

CO<sub>2</sub>, CO and a minute amount of N<sub>2</sub>, HCN and H<sub>2</sub>O vapors

may be formed during combustion

5.3 Advice for firefighters

self-contained breathing apparatus (SCBA)

#### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel not applicable6.1.2 For emergency responders not applicable

**6.2 Environmental precautions** not applicable

### 6.3 Methods and material for containment and cleaning up

**6.3.1 For containment** In case of spill, collect the spilled materials. If the material

is not contaminated, put it into a clean container and it can

be reused. Otherwise, dispose of it properly.

**6.3.2 For cleaning up**Because the dust is electrically conductive and may

become airborne, clean up with a vacuum. If an electrical appliance is used, take the steps necessary to avoid the

risk of electrical shock.

#### 6.4 Preventative measures against second disasters

Remove possible sources of ignition in the surrounding

area

### **SECTION 7: Handling and storage**

**7.1 Precautions for safe handling**No special measures necessary if used properly.

### 7.2 Conditions for safe storage, including any incompatibilities

Airborne particles and filaments should be controlled so as to minimize skin irritation and electrical shorts in switch

gears, etc. due to conductivity of fiber.

Do not store together with oxidizing agents

**7.3 Specific end use(s)** see section 1.2

### **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

# Occupational exposure limits OSHA and ACGIH (USA) have not established air

contamination for carbon fibers. Under certain conditions this substance may be a nuisance dust. OSHA has an established standard for particulates not otherwise regulated (nuisance dust) set at 5 mg/m³ (respirable fraction) and15 mg/m³ (total dust). ACGIH has established an exposure value of 3 mg/m³ (respirable fraction) and 10 mg/m³ (total).

Japan Society of Occupational Health sets 0.5mg/m3 limit for inhalation dust and 2.0mg/m3 as the total dust that are classified as "Class 1 dust" by the Japanese regulation (2011)

NHFPC (PRC) has an established standard for carbon fiber's particulates not otherwise regulated set at 6mg/m³ ESTL (total dust) and 3mg/m³ TWA (total dust),

Belgium has established an Occupational Exposure Limit for carbon fiber as 2 fiber/cm<sup>3</sup> TWA.

# 8.2 Exposure controls

**8.2.1** Appropriate engineering controls local exhaust for airborne fiber removal.

### 8.2.2 Personal protection equipment

**8.2.2.1 Eye and face protection** safety glasses

8.2.2.2 Skin protection

Hand protection protective gloves

Other skin protection Recommend disposable protective garments to eliminate

possible skin irritation.

**8.2.2.3 Respiratory protection** Personal dust respirators applicable if high degree of fiber

fly is experienced.

**8.2.2.4 Thermal hazards** not applicable

**8.2.3 Environmental exposure controls** see SECTION 6 & 7
