## **AGE REDUCTIONS AND EXCLUSIONS**

Insurance benefits and guarantee issue amounts are subject to age reductions:

- At age 70, amounts reduce to 67%
- At age 75, amounts reduce to 45%

Spouse coverage terminates when you reach age 70.

Life insurance benefits will not be paid if the insured's death is the result of suicide within one year from the date coverage begins. If this occurs, the sum of the premiums paid will be returned to the beneficiary. The same applies for any future increases in coverage under this plan.

Information about the AD&D exclusions for this plan will be included in the summary of coverage, which you will receive after enrolling.

Please contact your employer if you have questions prior to enrolling.

# Voluntary Term Life and AD&D Coverage Selection and Premium Calculation

Please note that the premium amounts presented below may vary slightly from the amounts provided on your enrollment form, due to rounding.

**To select your benefit amount and calculate your premium, do the following:**

- 1) Locate the benefit amount you want from the top row of the employee premium table. Your benefit amount must be in an increment of \$10,000. Refer to the Coverage Guidelines section for minimums and maximums, if needed.
- 2) Find your age bracket in the far left column.

- 3) Your premium amount is found in the box where the row (your age) and the column (benefit amount) intersect.
- 4) Enter the benefit and premium amounts into their respective areas in the Voluntary Life and AD&D section of your enrollment form.

If the benefit amount you want to select is greater than any amount in the table below, select the benefit amount from the top row that when multiplied by another number results in the benefit amount you want. For example, if you want \$150,000 in coverage, you obtain your premium amount by multiplying the rate for \$50,000 times 3.
